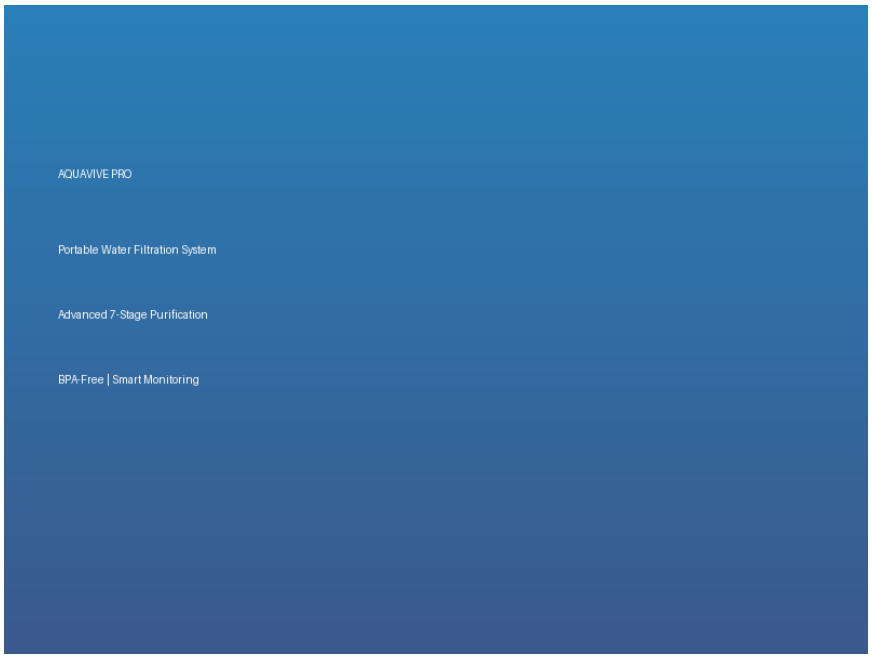
AQUAVIVE PRO

Premium Portable Water Filtration System



PRODUCT OVERVIEW

AquaVive Pro is a cutting-edge portable water filtration system designed for health-conscious consumers who demand pure, clean drinking water anywhere. Featuring advanced 7-stage purification technology and real-time water quality monitoring, AquaVive Pro ensures optimal hydration for individuals and families.

KEY FEATURES

✓	7-Stage Purification Technology	Removes 99.9% of contaminants, bacteria, and viruses
✓	Smart Water Quality Monitoring	Real-time TDS (Total Dissolved Solids) display
✓	High Capacity Filtration	Filters up to 3,000 liters per filter cartridge
✓	Eco-Friendly Design	100% BPA-free and recyclable materials
✓	Portable & Lightweight	Perfect for travel, camping, and outdoor activities
✓	Fast Filtration Speed	Purifies 1 liter in under 3 minutes

TECHNICAL SPECIFICATIONS

Specification	Details

Filtration Stages	7-stage advanced purification system
Filter Life	3,000 liters per cartridge (~6-12 months)
Filtration Speed	0.5-1 liter per minute
Water Capacity	2.5 liters total capacity
Dimensions	28 cm (H) x 12 cm (W) x 10 cm (D)
Weight	850 grams (empty), 2.85 kg (full)
Material	Food-grade silicone, stainless steel, BPA-free plastic
Operating Temperature	5°C - 45°C
TDS Reduction	Up to 99.9% (varies by contaminant)
Warranty	2 years limited warranty + lifetime customer support
Certification	NSF/ANSI Standard 42, ISO 9001 Certified

PRICING & MARKET INFORMATION

Item	Price	Availability
AquaVive Pro (Base Unit)	$199.99	In Stock
Replacement Filter Cartridge	$34.99	In Stock
3-Pack Filter Bundle	$94.99	In Stock
Travel Case (Optional)	$39.99	In Stock

TARGET MARKET & USE CASES

Primary Audience: Health-conscious individuals aged 25-55, environmentally aware consumers, families with young children, outdoor enthusiasts.

Use Cases: Home water purification, travel and camping, emergency preparedness, RV and boat use, office hydration stations, portable health monitoring.

Market Segment: Premium home wellness and portable filtration systems with estimated market growth of 12.5% CAGR through 2028.

COMPETITIVE ADVANTAGES

- **Superior Filtration Technology:** 7-stage system vs. competitors' standard 3-4 stage systems
- **Smart Monitoring:** Only competitor with real-time TDS display in this price range
- **Sustainability:** 100% recyclable materials and lowest carbon footprint in category
- **Customer Support:** Lifetime technical support and 2-year warranty
- **Value Proposition:** Cost-effective at $0.067 per liter filtered vs. $0.25 for bottled water
